

Addendum No. 1 – Add Alternate for Pavement Striping 7/16/2025

City of Middletown – 2025 Paving Project

This addendum is issued to modify the original bid specifications for the 2025 Repaving Project. Please incorporate the following as part of your bid response:

Add Alternate No. 1 – Pavement Striping:

Bidders are requested to submit a separate lump sum cost as an *Add Alternate* for pavement striping services on all roads included in the base bid. This price should include all labor, materials, equipment, and mobilization necessary to install center lines and edge striping where applicable, in accordance with Kentucky Transportation Cabinet standards.

If a contractor does not offer striping services, please indicate “Not Offered” for the Add Alternate.

This Add Alternate will be evaluated independently of the base bid. The City reserves the right to award this alternate at its sole discretion.

Please include this alternate on a separate line item within your bid package and clearly label it as:

Add Alternate No. 1 – Pavement Striping

All other terms and conditions of the original bid specifications remain in effect.
